

# 5th International solar fuels conference

## Early-career researcher (ECR) programme

1-2 September 2025, Newcastle, UK

The ECR programme, as part of the 5th International solar fuels conference (1-5 September), is for students, post-docs and all ECRs from around the world, working in all areas of solar fuels research.

Designed by an ECR committee, the programme aims to give additional opportunities to ECRs to present through oral presentations and poster sessions.
